DF 3000 MPT - independent dust control unit

The **DF 3000 MPT** (Mobile Power Tank) is a **independent dust control unit** equipped with a fog cannon installed on a manual telescopic mast, a plastic water tank, a power generating set and an optional road trailer. A perfect solution for small to medium sized working areas where water and energy are not available.

Standard Equipment

- Telescopic vertical mast (max. height: 4m)
- 1000 litres water tank
- 3,7 kW 230 V integrated generating set
- · Integrated control panel
- · Stainless steel crown with nozzles
- Nebulizer cannon (foldable for transport)
- · Telescopic mast with double crank winch
- Water Supply and Main Electricity network connections
- · High pressure washer connection
- · Water draining system
- · Structure on base with forklift pockets for easy handling

Control panel

- · command switches
- · circuit breakers
- · emergency stop button

Nozzle crown

Fog cannon with stainless steel crown equipped with 12 spray nozzles for water nebulizing.
